- **Dr. T. Senthil Kumar** proposed that each core laboratory course should systematically incorporate six hands-on exercises and one-project, all meticulously aligned with the Course Outcomes (COs).
- **Mr. S.P. Balamurugan** emphasized the importance of improving coding proficiency and analytical thinking by introducing regular internal hackathons and LeetCode-based programming challenges as integral components of lab evaluations.
- **Dr. J. Shiny Duela** recommended the integration of Cybersecurity foundation modules within the curriculum to address the growing necessity for students to understand modern digital threats.
- **Dr. S. Nagarajan** proposed adopting an industry-blended curriculum model that incorporates current industry-standard tools, real-world case studies, and emerging trends to bridge the gap between academia and the professional world.

Master of Engineering (CSE)

- **Dr. J. Shiny Duela** suggested including research-oriented mini-projects and case studies that align with the latest industry challenges and emerging technologies to deepen practical knowledge and innovation skills.
