1. Introduction

The Institution’s Innovation Council (IIC) and the Department of Mathematics of Annapoorana Engineering College jointly conducted a seminar on “Global Pathways: Turning International Exposure into Career Innovation” on 21 September 2026 (Monday). The programme was held from 9:45 a.m. to 11:00 a.m. at the Dr. A. Shanmugasundaram Auditorium for the final year students. Since these students are close to finishing their degree and have to decide on their next step, the seminar was planned to show them the opportunities available abroad and how to prepare for them.

2. Objectives

- To make final year students aware of international study, work and career options.
- To explain how international exposure helps a student grow in skills, confidence and thinking.

- To guide students in planning their higher studies and career with a global view.
- To encourage innovative and entrepreneurial thinking, in line with the goals of the IIC.

3. About the Resource Person

The seminar was handled by Mr. Karthik M, Managing Director, Riddle Educate, Salem. He works closely with students who plan to study or build a career abroad, and he shared his experience with our students in a simple and practical way.

4. Proceedings

The programme began at 9:45 a.m. in the auditorium. The resource person was welcomed and introduced to the students by the organising team. The Principal, the Head of the Department of Mathematics, the coordinators and the organising secretaries were involved in conducting the event.

In his talk, Mr. Karthik M spoke about why international exposure matters today and the different routes open to graduates, such as higher studies, research and jobs abroad. He said that meeting people from different cultures and working with new technologies teaches students to communicate better, solve problems and adapt to new situations. He advised the students to start planning early, keep their academic record strong, improve their communication and soft skills, and choose a course and country that suits their own interests and goals.

The students listened with interest and asked questions about higher studies and career planning, which the resource person answered. The session ended at 11:00 a.m. with a vote of thanks.

5. Outcomes

- Students understood the study and career options available to them after graduation.
- Students were encouraged to look at international exposure as a way to grow and to think innovatively.
- Students realised the need to plan early and work on their skills.
- The event added to the activities of the IIC and brought the IIC and the Department of Mathematics together.

6. Conclusion

The seminar was useful and relevant for the final year students. The IIC and the Department of Mathematics thank the resource person, the Principal, the faculty members and all the students for their support and participation in making the programme a success.
